xAudit Table

Information about the additions, changes, and deletions of records can be found in the xAudit table. The xAudit records contain the following information about a record:

Table No. – The table number of the record.

Key – The ID of the record. (ie [Technology]ID, [Company]Company Code,[People]People Code)

User – The user who added, modified, or deleted the record.

Type – The type of action performed on the record (**C** – Change, **A** – Add, **D** - Delete).

Date – The date the action occurred.

Time – The time the action occurred.

To retrieve the records in the following example, go to the Technology table and query where [Technology]ID = Key (ie [Technology]ID = 4992 for the first record in the list below). A table is provided on the following two pages which includes the table name and number for all tables that create xAudit records.
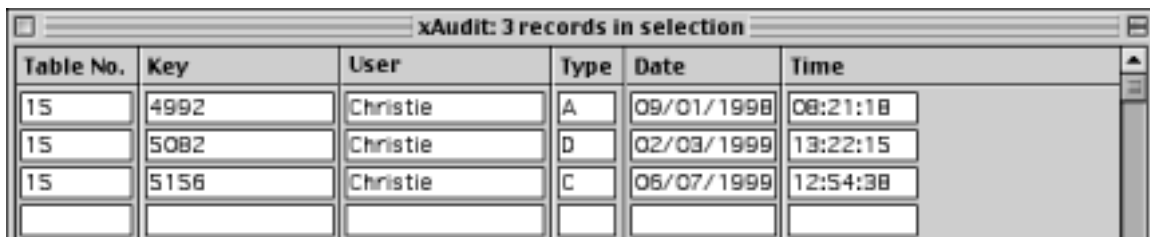

Table No.	Key	User	Type	Date	Time
15	4992	Christie	A	09/01/1998	08:21:18
15	5082	Christie	D	02/03/1999	13:22:15
15	5156	Christie	C	06/07/1999	12:54:38

xAudit: 3 records in selection

NOTE: If the record was added or modified before the xAudit table was implemented, there will not be any xAudit records for that particular record.
